PERFORMANCE + STYLE + CHOICE

Steelcase Series™ 1 delivers what's important—performance, style and choice. It retains everything that's valued in a chair, while making it attainable for everyone.

Best in class. By Steelcase.

INTUITIVE PERFORMANCE

Series 1 was thoughtfully designed with the performance you've come to expect from Steelcase. Series 1 delivers dynamic performance without sacrificing affordability.

17-0086216

PERFORMANCE AT BEST

It features our signature integrated LiveBack® technology, adaptive bolstering and an intuitive Weight-Activated Mechanism.

LIVEBACK® TECHNOLOGY WITH ADJUSTABLE LUMBAR SUPPORT

Allows the chair back to change shape and mimics the user's spine as it moves throughout the day. Contours to fit the user's spine through a system of flexors tucked neatly inside the backrest, offering continuous lower-back support as you move in your chair.

4D ADJUSTABLE ARMS

Move in height, width, depth, and pivot to better support the user's neck and shoulders. The cantilevered arm design encourages postural change.

ADAPTIVE BOLSTERING

Enables the seat to conform to the user's shape, providing dynamic support that can adapt to the body as postures change.

WEIGHT-ACTIVATED MECHANISM

Allows for automatic and intuitive adjustments.

SEAT DEPTH

Supports different leg lengths for long term comfort by sliding forward or backward.

A RANGE OF AESTHETICS AND CHOICE

Series 1 offers 11 mix-and-match knit, flexor and lumbar colour options, and a wide range of finish options that enable organisations to express their brand in a way that best represents them. Plus, it's available in standard and draughtsman height. Headrest and coat hanger are in option to support a wide range of tasks and workstyles.

Additional Options	Polished alu base Adjustable headrest Coat hanger Polished aluminum base Seat impact absorber Hard or soft castors Glides

AVAILABLE FRAME FINISHES

■ 05 Black
□ B7 Seagull

SUSTAINABILITY

DESIGNING FOR THE ENVIRONMENT REQUIRES INNOVATIVE THINKING AND SOLUTIONS.

LIFE CYCLE

During our product development process we consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life.

Thanks to the Life Cycle Assessment (LCA) method, Steelcase quantified Steelcase Series 1 environmental impacts to set the stage for further improvements.

This method, based on ISO 14040 and 14044 and selected by The European Union for environmental evaluation, allows us to quantify the environmental impact of our products throughout their whole lifecycle.

MATERIALS

11% recycled content by weight for the plastic base version.

PVC-free.

100% recycled cardboard and 30% recycled LDPE film (Low Density Polyethylene) in packaging.

Water-based inks without solvent on packaging.

PRODUCTION

ISO 14001 certification for the Sarrebourg site (France).

Powder-coat painting: VOC-free and free of heavy metals.

No gluing processes/water-based glue.

Water-based polyurethane foam.

TRANSPORT

Manufactured close to customers, in Europe.

Eco-smart ++ packaging - Minimised packaging weight and volume.

USE

Designed for a long product life.

Replaceable parts and easy-to-change textiles.

No toxic substances released by our eco-labeled textiles. Maintenance information is available on steelcase.com

END OF LIFE

98% recyclable by weight.

100% recyclable cardboard and LDPE film for packaging.

Quick and easy disassembly.

Plastic parts clearly labelled for easy sorting and effective recycling.

CERTIFICATIONS

To show continuous improvements, we communicate Steelcase Series 1 environmental performance through voluntary environmental labels and declarations.

Sustainability related actions and results are communicated in the annual Steelcase Corporate Responsibility report.
